Previous Related Projects/ Research	Creating a tool for online career guidance

<p>Experience</p>	<p>The main goal of this tool is to help customers navigate what professional areas are suitable for them.</p> <ul style="list-style-type: none"> - Target groups: Young people who need career guidance. - Description: The tool can be used by customers alone or with a career counselor. The customer fills in the questionnaire, noting whether each statement applies to him or not. The results are calculated by aggregating the answers A and B (answer C does not count). Depending on which responses predominate, clients receive interpretation of the results after each section. You can then continue to the next section. - Expected results: Improving self-knowledge to clients for their interests, preferences, attitudes and values regarding career. <p>Better knowledge of the appropriate professional fields and opportunities.</p> <p>This tool aims to orient your professional areas which are suitable for you. It contains four sections.</p> <ul style="list-style-type: none"> - Instructions: Each section contains a list of statements that describe different beliefs, attitudes, interests, preferences and values. Please note against each statement if it applies to you or not. <p>There are no right or wrong answers.</p> <p>Upon completion of a section, you will get a brief interpretation and guidance for professions suitable for you, based on the results. You can then move on to another section.</p>
<p>Short Description of the Project idea</p>	<p>The main goal of the project idea is to build a strong relationship and to establish good communication between the staff, so to be able to exchange good practices and to collaborate at the future. The gained knowledge and experience will be the tool that will help with the start-up of his own organization.</p> <p>The diversity methods and approaches in the provision of information and guidance with new tools for work which are expected to help to take advance of the collaboration and develop organizations.</p>

	Collaborate within a core business, education and vocational guidance already consolidated and confront various themes will be interesting and challenging, both for the job itself and that personnel. The baggage of his personal and professional knowledge, in fact enhanced by this experience, will be strictly useful in the near future to start their new business and finally enter the market with creative start-up.
