Subject: The 4th season of the PMA Community is about to start

Dear colleagues,

We hope this message finds you well and that you are enjoying the final, sun-filled weeks of August.

As the new semester is approaching, we are thrilled to share some exciting updates and provide you with an early glimpse into the plans for the upcoming academic year - both within and a bit beyond the PMA Community.

A brief insight into the PMA Community activities - autumn/winter semester

Project management and implementation: This semester, our focus will be on [lump sum funding management](#) (7/11 at 10.30 CET) as per your interest to continue diving deeper into the topic as well as on addressing [transversal priorities in the Erasmus+ KA projects](#) (28/11 at 10.30 CET). In the first session of this season - [A Decade of Erasmus+ KA2: State of the Art and Future Outlook](#) (26/09 at 10.30 CEST) - we will explore the evolution of Erasmus+ KA2 over the past 10 years, with particular emphasis on the most recent developments. Additionally, we'll be sharing further details about new initiatives and updates planned for the Community in the upcoming academic year.

Project preparation cycle: Starting from October, we will dive into the project preparation cycle. Responding to your interest in various additional project calls beyond Cooperation Partnerships, we have scheduled a special session in December to discuss potential areas of interest and explore new partnership opportunities.

This year, we will gather in 7 online sessions:

- [Ideation Sessions: From Ideas to Impactful Initiatives](#) (October 10th and 31st, 10.30 - 12.00 CET)
- [Networking for Innovation: Building New Collaborative Pathways Together](#) (December, 19th 10.30 - 12.00 CET)
- [Mastering Project Design in Erasmus+ Cooperation Partnerships](#) (January 9th, 10.30 - 12.00 CET)
- [Mastering Financial Planning in Erasmus+ Cooperation Partnerships](#) (January 30th, 10.30 -12.00 CET)
- [Mastering the Erasmus+ Application Form for Cooperation Partnerships](#) (February 20th 10.30 - 12.00)
- [Open topic of your choice](#) (date will be announced when we know the exact deadline for Cooperation Partnership submission)

You may register for the sessions that are of interest to you [here](#) and as always, you are more than welcome to extend the invitation to colleagues at your institution who might also wish to join and participate.

Co-creation of the sessions: The topics for this academic year have been carefully aligned with the priorities you highlighted in the feedback survey circulated in June - thank you for your invaluable input. Throughout the academic year, we encourage you to continue contributing and co-creating sessions via the shared working file [here](#). We are keen to hear your thoughts on what specific aspects you would like to explore further during each session. Our goal

remains co-creating sessions that are highly relevant and focused on the topics most important to you.

Other EUF network Communities and activities

As aside the PMA Community, there are 5 other network-wide Communities, including several new Communities that will be launched in September/October, and we warmly invite you to join the opening session of this season - [EUF 2024/25 Season: New Communities and Key Network Activities in less than 60 Minutes](#) (12/09 at 10.30 CEST). This session will be an excellent opportunity to have an overview of the full range of activities within the EUF network planned for the 2024/25 academic year. You may register [here](#) and in case you are interested in joining additional Communities, you may do it [here](#) at any time.

We look forward to reconnecting with you all in September and, in the meantime, we wish you a wonderful remainder of the summer.

Best regards,
Liga
