Cilji:

Študent/ka:

nadgradi znanje in razumevanje o značilnostih otrokovega in mladostnikovega razvoja v posameznih obdobjih ter pomenu individualnih razlik med učenci, o značilnostih razreda in šole kot socialnega sistema in na podlagi osvojenih znanj in večin zna ustrezno organizirati učne situacije in razredno interakcijo.

Objectives:

A student:

Becomes able to understand characteristics of human development and importance of individual differences. Student will also be able to apply his/her knowledge and skills to organize suitable learning environments and classroom interaction.

Predvideni študijski rezultati:

Znanje in razumevanje:

- Poglobljeno poznavanje in uporaba zakonitosti in dejavnikov razvoja, razumevanje značilnosti različnih razvojnih obdobij in zmožnost ukrepanja v prid otrokovemu razvoju.
- Razumevanje psiholoških dejavnikov uspešnega učenja in vpliva individualnih razlik na spoznavnem in čustveno-osebnostnem področju na učenje.
- Poznavanje in sposobnost analize vpliva medosebne interakcije, socialnih odnosov in socialne klime na delo v razredu.

Prenesljive/klučne spremnosti in drugi atributi:

Sposobnost kritične uporabe znanstvenih in strokovnih spoznanj iz psihologije na področju pedagoških ved in v praksi; spremnosti komunikacije in uravnavanja medosebne interakcije.

Intended learning outcomes:

Knowledge and Understanding:

Deeper knowledge and understanding of factors influencing cognitive and psychosocial development, characteristics of developmental stages and application of this knowledge in benefit of child development.

Understanding of psychological factors of successful learning and influence of individual differences in ability and personality on learning.

Knowledge about influence of interpersonal interaction, social relationships and social climate on learning process.

Transferable/Key Skills and other attributes:

Ability to critically use the knowledge from the field of psychology in other fields and in the praxis; communication skills.

Metode poučevanja in učenja:

Predstavitev vsebin ob vzpodbujanju študentov k reševanju problemov. Vaje so usmerjene v povezovanje teorije in prakse, potekajo v manjših skupinah.

Learning and teaching methods:

Lectures with discussion and problem solving methods. Exercises and projects aim to connect theory and praxis; they include working in small groups.

Načini ocenjevanja:

Delež (v %) / Weight (in %)

Assessment:

ustni izpit projekt na naloga	70% 30%	oral examination project assignment
