Cilji:

Študent/ka:

Nadgradi znanje in razumevanje o modelih obravnave oseb s PP v edukaciji in rehabilitaciji, o procesih inkluzije, deinstitucionalizacije v svetu in pri nas, se poglobljeno in kompleksno seznani s karakteristikami otrok in mladostnikov s PP, z možnimi oblikami podpore, programi obravnave ter postopki ocenjevanja in diagnosticiranja motenj osredotočenih na osebo s PP in družino, pridobljeno znanje in spretnosti uporablja pri oblikovanju partnersko-sodelovalnih odnosov s starši, učitelji in drugimi strokovnjaki v timu.

Objectives:

A student:

Becomes able to understand models of treatment of persons with SN in education and rehabilitation and becomes able to understand process of inclusion and deinstitutionalization in foreign countries and in our country. Student will also be able to acquaint deeper and more complex knowledge about characteristics of children and adolescents with SN, about possible forms of support, programs of treatment and procedures of assessment and diagnosis which are person and family centered. Student will also be able to apply his/her knowledge and skills to create partnership and cooperative relations with parents, teachers and other professionals in team.

Predvideni študijski rezultati:

Znanje in razumevanje:

Poglobljeno poznavanje modelov obravnave v edukaciji in rehabilitacijski ter razumevanje in upoštevanje razvojnih karakteristik otrok in mladostnikov s PP,
Poznavanje metod in pristopov ocenjevanja, diagnosticiranja motenj in programov obravnave ter zmožnost prepoznavanja preprek in ovir pri uresničevanju le-teh v praksi,
Poznavanje in uporaba pristopov in veščin za vzpostavljanje učinkovitega partnerskega in timskega sodelovanja na področju dela z osebami s PP in starši.

Prenesljive/ključne spretnosti in drugi atributi:

Sposobnost kritične uporabe znanstvenih in strokovnih spoznanj iz specialne pedagogike na področju pedagoških ved in v praksi; spretnost razvijanja inkluzivnih, holističnih pristopov in odnosov pri delu z osebami s PP in starši.

Metode poučevanja in učenja:

Predstavitev vsebin ob vzpodbujanju študentov k reševanju problemov. Vaje so usmerjene v povezovanje teorije in prakse, potekajo v manjših skupinah.

Intended learning outcomes:

Knowledge and Understanding:

Deeper knowledge of models of treatment in education and rehabilitation, understanding and meeting developmental characteristics of children and adolescents with SN;
Knowledge about methods and approaches of assessment, diagnosis of disabilities and programs of treatment, recognize barriers in practice.
Knowledge and application of approaches, skills for creating effective partnership and team work on the area of special needs (with persons and parents).

Transferable/Key Skills and other attributes:

Ability to critically use the knowledge from the field of special pedagogy in other fields and in the praxis; skills of developing inclusive and holistic approaches and relations while working with persons with SN and parents.

Learning and teaching methods:

Lectures with discussion and problem solving methods. Exercises and projects aim to connect theory and praxis; they include working in small groups.

Načini ocenjevanja:
